REA/CWT - A way to look at Rib Eye Area in relation to the animal's weight per 100 lbs. REA/CWT scores of 1.0 and higher are good indicators of high yield grading cattle.

Comments about Ultrasound Ratios: Bulls were ratioed for ultrasound carcass traits in the same contemporary groups as for birth and weaning performance. You will see some bulls with the same REA, 12.1 for example, with different REA Ratios. The reason for this is that more than one contemporary group is represented in this set of ultrasound data.
